

Junior ReactJS Software Engineer

Anthony Colas

React/TypeScript Developer
Web3 MacGyver

Full Remote Position

CAREER OBJECTIVES

With my expertise with React, 8 years of work experience in Asia and my ability to find solutions to any kind of problems, you have in front of you someone who can help you build and ship fast projects.

I am passionate about web3 and my goal is to leverage this technology to create the best possible customer experience in everything I do.
